IFW

As hard as I tried I was not able to  
Computers print the number on the sheets of  
my procedure. Your supervisor Mr. Marches  
said I can write out these numbers.

I have sent them two envelopes out & gave them  
my application # on the internet about brain tumors  
are the cause of asthma attacks. They just might  
look into this & tell you if true.

To whom it may concern: On your New York news cover magazine concerning cancer of the April fifth 2004 series, I have read this and many such articles in various paper forms over the years. But my story goes back about 15 years ago when I first started an experiment on my self to find an answer to some thing I wanted to know, and instead quite by accident I found out how to cure brain tumors with out invasive surgery or radioactive elements, and find myself living proof with this dead tumor in my brain that was not cancerous, and if it were, it would be dead anyway. I have applied for a patent on this procedure and hope to receive it with in a year. In the procedure I have explain also how to go about a possible cure for metastasis cancer in a solid way with out surgery or radioactive substances. The biological chemistry of cancer cells to be sure is very complicated which no one understands as much as one would like to, how ever my logic more than makes up for this as the explanation for its possible demise was explained along with my brain tumor cures that are in my procedure papers on the examiners desk at the present time, and was told it would take a few more months to be examined. This inventor specialist saw no reason my papers should not pass when I asked what he thought of them. How many times in history have cures come about certainly enough by accident ,or by trial and error that can not be explained fully or at all as to how it happen? This explanation can wait, but not for the cure. This letter may sound far fetch to you, but I believe in it! Keep this letter for the near future; and for the record I am not a medical person, but am a self taught person that just got lucky! Sincerely yours Frank Gulisano  
Robinhoodone@AOL.COM MAILED TO THE NEW YORK NEWS MAGAZINE 04/05/04 TO THE ANNUAL FUND FOR CANCER RESEARCH AND PREVENTION FOUNDATION. 04/06/04. TO BILLY GRAHAM PERHAPS YOU CAN HELP ME SOME HOW CONCERNING THE ABOVE LETTER. IT WOULD BE A BENEFIT TO BOTH OF US I ASSURE YOU! 04/15/04. SENT TO THE LEUKEMIA & LYMPHOMA SOCIETY 04/15/04 FAXED TO FORTUNE MAGAZINE 04/16/04. TO RONALD MCDONALD HOUSE OF NEW YORK INC. 04/28/04 MAILED TO FORTUNE MAGAZINE 04//29/04 (FAXED 4/16/04) TO AMERICAN INSTITUTE FOR CANCER RESEARCH 05/03/04 (REPLY JUNE 25, 2004) TO CANCER CARE 05/20/04 TO NATIONAL CANCER COALITION 06/24/04 TO THE NATIONAL CHILDREN'S CANCER SOCIETY 7/15/04 TO NATIONAL BREAST CANCER RESEARCH

CANCER RESEARCH FUND 02/03/05 TO HOSPICE EDUCATION  
INSTITUTE 02/11/05 TO THE NATIONAL CHILDREN'S CANCER  
SOCIETY SENT 07/27 2006 PERHAPS WHEN I RECEIVE MY  
PATENT SOME ONE CAN HELP ME IN SECURING A GRANT AS I  
THINK I MIGHT NEED HELP IN DOING THIS. I REASON A  
PATENT IS GOOD GROUNDS FOR A GRANT AT LEAST TO  
RESEARCH AND DOCUMENT THIS PATENT. I WOULD HOPE  
THE GOVERNMENT WOULD WANT TO HELP IN SEEING WHAT  
THIS PROCEDURE CAN COME UP WITH. AFTER ALL ITS BEEN  
AN AWFUL LOT OF YEARS WITH NO CANCER CURE YET BY  
ANY ONE THAT DID NOT USE SURGERY OR RADIOACTIVE  
MATERIAL. IN MY CASE IT WOULD BE PURE LOGIC AND LUCK  
AT WHAT I DID 15 YEARS AGO ON MYSELF THAT I FEEL  
RELATES TO THE ABOVE CURE. RIGHT OR WRONG I FEEL  
STRONG ABOUT IT AND HAVE INVESTED IN A PATENT FOR THIS  
REASON, AND IN DUE TIME INTO THE PCT PROCESS.  
NATIONAL FOUNDATION FOR CANCER RESEARCH 02/15/05  
(REPLY MARCH 7, 2005)

Of all the people I wrote to, sent fax, and gone to a few research departments in dropping off my material, I have found it encouraging to hear from you which is a first. You are the first person Mss. Marily Gentry to have the decency to write to me, in so doing I know you are a very sensitive and truth full person and that it effects you a lot when you hear a person dying from this disease, and how many times did you pray for a cure? can you recall? I will spend \$1,050 on this procedure for small entity status and it has passed its first test in being filed to continue for further examination. Oddly enough it's a simple procedure but very difficult to understand what is happening, and may take years to explain it scientifically. It takes many hours to perform this procedure and such discovery could only have come by accident and a lot of thinking as to what happen to me which took me many months to figure out. My belief is to have started this with a cure in mine would have been impossible an then too many years if at all in our life time in curing brain tumors, spilling over to metastasis tumors and my showing how to research this in what I believe to be a solid footing for a cure. This will be done by changing the chemical composition of a substance twice into something much different, and the timing of its use is crucial. The fact that I was looking for some simple answers for something else in my experiment on my self must mean this tumor cure was meant to be. At any rate you will be the first I will contact when this patent is issued to me and we will find out where the truth lies at your research center perhaps. Why I let this information lie for 15 years from age 55, I honestly don't know.

Sincerely Yours FRANK GULISANO 07/01/04
